Dear Parents and Guardians,

I hope this letter finds you well. As part of our commitment to keeping you informed about your child's academic progress, we are writing to share important information regarding our school's performance on the most recent state assessment.

Each year, students across our state participate in the state standardized assessments, which are designed to measure academic growth and proficiency in subjects such as reading, mathematics, and science. The results from these assessments are used to gauge how well our students are mastering the state's academic standards and to help guide future improvements in our educational programs.

Overview of State Assessment Results

We are pleased to report that, as a school, we have made significant progress in several areas this year. We achieved a rating of a "B" for the second time in the school's history. We have substantial gains in our overall proficiency and growth of all students.

At the same time, we recognize that there are areas where we can continue to grow. Rest assured, we are committed to providing targeted support to all students and will use these results to refine our instruction, offer additional resources where needed, and ensure that every child has the opportunity to succeed.

What This Means for Your Child

The state assessment provides a snapshot of how your child is performing academically in relation to state standards. However, it is important to remember that this is only one measure of a child's overall growth. Teachers at our school use a variety of tools and assessments throughout the year to get a complete picture of each student's progress. We are committed to

supporting your child's learning in both the classroom and through personalized interventions, as needed.

Next Steps

If you would like to discuss your child's individual results, we encourage you to reach out to your child's teacher or schedule a meeting with a member of our administration. We are here to collaborate with you and provide any additional insights or support necessary to help your child thrive.

Thank you for your continued partnership in your child's education. Together, we can work to ensure that all students have the resources and opportunities they need to succeed.

Sincerely,

Andrea Edgecombe, Principal

School Accountability Grade Components

Mississippi's accountability system assigns "A" through "F" letter grades for schools and districts. Grades are based on student achievement, student growth, student participation in testing, and other academic measures.

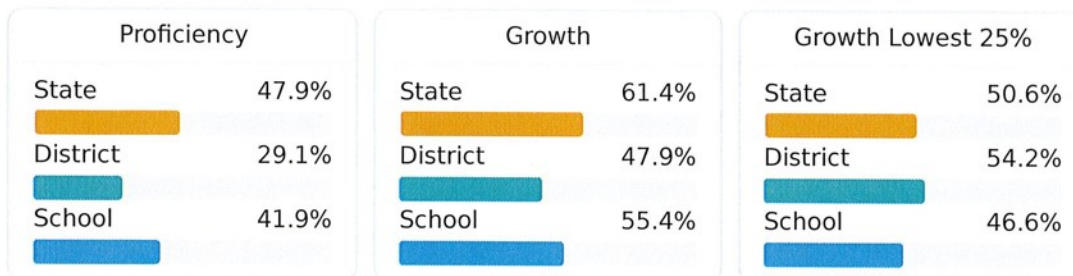

Math

Measurements of student performance on the statewide math assessment.

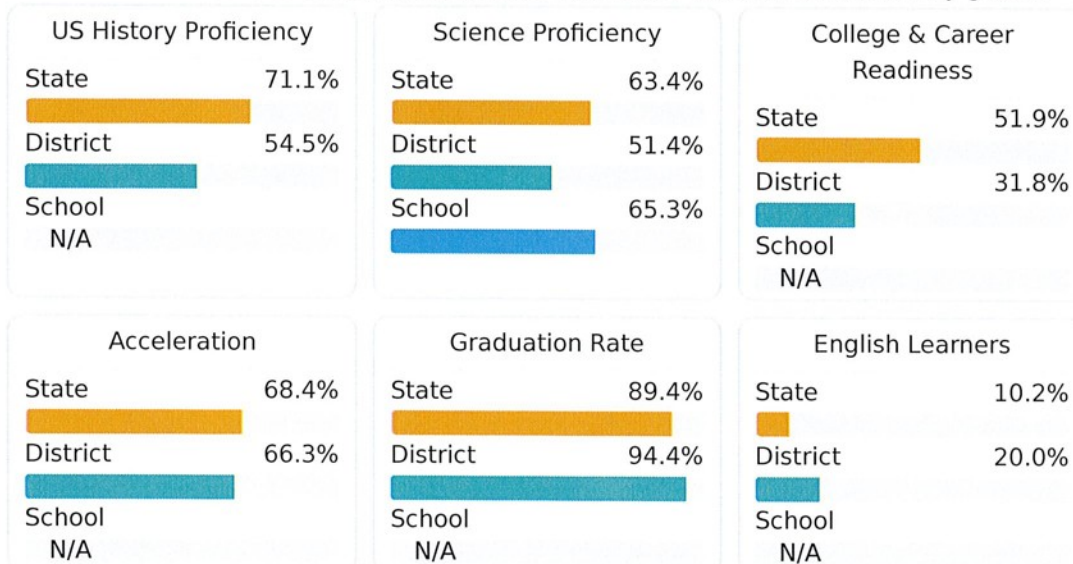

English

Measurements of student performance on the statewide English language arts (ELA) assessment.

Other Measures

Other measurements of student performance that factor into the accountability grade.
