

October is Farm to School Month!

Join the Yazoo County School District's Child Nutrition Department as we celebrate Farm to School Month—a time to recognize the connections between our schools, local farmers, and healthy meals.

Throughout October, our cafeterias will display fresh, locally sourced foods and fun activities that help students learn where their food comes from and how it fuels their bodies.

Let's celebrate our Mississippi farmers and continue growing healthy habits—one bite at a time!
